

ATTENTION: Spring INET Students

Students enrolling in an online course for Spring 2011 MUST complete the e-Racer orientation.

Students that have completed the e-Racer orientation previously do not have to repeat the orientation. These students are noted in the system and on the instructor's roster.

Students that have not completed the e-Racer orientation will be enrolled in a section of the e-Racer orientation at the close of the registration period. Students that do not complete the orientation by the end of the current semester will be enrolled in a new section of the orientation the next semester.

Instructors should advise students of this requirement but have no other responsibility toward students' completion of the orientation.

Students in INET courses that have not completed the orientation will be periodically reminded to complete the orientation to ensure eligibility to enroll in future INET courses.

Send an email to orientation@smail.anc.edu or ANCHelp@smail.anc.edu if you need have questions regarding the INET orientation requirement process or if you need to check on your completion status.
